Amended drawings are approved and entered.

Amendments of specification overcome the objection to the disclosure.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 6-9 are rejected under 35 U.S.C. 102(a) as being anticipated by Applicant's Admitted prior art (AAPA).

Regarding claim 6, AAPA discloses a method of fabricating an organic EL display device (see Fig 2B) comprising forming an ITO strip (102, 102A) on a glass substrate (101), forming a counter strip (103) on the ITO strip (102A) located in regions other than an emitting region (see Fig 2B) wherein the counter strip is in a grid form (see Fig 2b, 2C, 2D) having plurality of holes, forming a first insulating layer (106 of Fig 2C) on the glass substrate having ITO strip, forming barrier ribs (107) on the insulating layer (106, see Fig 2D); forming an EL layer (104) and a cathode strip (105, see Fig 2F); and adhering seal cover (108) to the glass substrate (see Fig 2F).

Regarding claim 7, AAPA discloses that the ITO strips includes a first ITO strip (102) and a second ITO strip (102A); the second ITO strip having width smaller than that of the first ITO strip (see Fig 2A).

Regarding claim 8, AAPA discloses that the plurality of holes includes polygons (see Fig 2B-2D).

Regarding claim 9, AAPA teaches expanding the insulating layer a predetermined area, including the cross section point between the counter electrode and the sealant and to the area of the glass substrate so as to be formed on a periphery of the organic EL layer (see Fig 1 of instant application).

Allowable Subject Matter

Claims 1-5 are allowed over the prior art of record.

Reasons for allowance of claims 1-5 are presented in office action mailed on 5/8/2006.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
